

aeris

Good
0 to 50

Air quality is satisfactory, and air pollution poses little or no risk.

Moderate
51 to 100

Air quality is acceptable. However, there may be a risk for some people, particularly those who are unusually sensitive to air pollution.

Unhealthy
101 to 150

Members of sensitive groups may experience health effects. The general public is less likely to be affected.

Serious
151 to 200

Some members of the general public may experience health effects; Members of sensitive groups may experience more serious health effects.

Severe
201 to 300

Health alert: The risk of health effects is increased for everyone.

Hazardous
301 and higher

Health warning of emergency conditions: everyone is more likely to be affected.
