

EnviroKlenz Mobile Air System, 250 CFM w/ Air Cartridge & HEPA Filter

Item Number: EG327-0250-00EK

The EnviroKlenz® Mobile Air System is your solution to improving your personal environment air quality through an “adsorptive neutralization” process for chemical odors, fragrances, and VOCs, combined with HEPA filtration for particulates and allergens all in one system.

Since the multistage treatment and filtration approach is enhanced with the patented EnviroKlenz technology, it is effective for a broad spectrum of indoor environmental sensitivity triggers.

The small size of the air processor allows it to be portable and easily maneuverable.

Applications:

- Chemical pollutant mitigation and control
- Household odors
- Allergens and other environmental trigger control

Technical Specification:

- Model Number: EG327-0250-00EK
- Square Foot Coverage: 750
- Power Requirements: 115V/60Hz / 1 amp
- Rated Air Flow of Fan (for each speed): 85, 150, 200, 250
- Decibels: 70 on high
- Dimensions: 15” x 15” x 19”
- Weight: 38 lbs
- Warranty: 1 year parts

Additional Information:

- An easily installed cartridge contains proprietary blend of materials to neutralize odors, chemicals, gases, Volatile Organic Compounds (VOCs), and larger particulates.
- A multi speed blower offers the quiet and efficient air flow. The low setting allows for near silent operation while still maintaining air flow. Medium to High speeds create maximum air efficiency at noise levels still suitable for residential and commercial use.
- Affordable maintenance costs.
- No tools are required for unit maintenance.
