SANTA-FE ™

INDOOR AIR QUALITY SOLUTIONS

PRODUCT CATALOG

PIONEERS OF INDOOR AIR QUALITY SOLUTIONS.

AT SANTA FE, WE ARE FOCUSED ON THE FRONT LINE IN DEFENSE – THE BIG 3: DEHUMIDIFICATION, FILTRATION AND VENTILATION.

DEHUMIDIFICATION

Excess moisture in the home can lead to poor indoor air quality, discomfort, and even structural damage. High humidity levels promote the presence of airborne pollutants such as dust, pollen, mold spores, and bacteria—putting both the home and its occupants at risk.

Santa Fe's innovative dehumidifiers are designed to maintain ideal humidity levels, regardless of outdoor conditions or air conditioning runtime. Combined with advanced MERV-13 filtration, our systems help reduce indoor pollutants, creating a healthier, more comfortable living environment while protecting the integrity of the home.

VENTILATION

Santa Fe's Ultra Series whole house ventilating dehumidifiers provide the additional benefit of outdoor mechanical supply ventilation that is filtered through a MERV-13 filter.

INDUSTRY-LEADING WARRANTY.

To say we stand behind our products is an understatement. While most manufacturers offer only a 1-year warranty, every Santa Fe dehumidifier is backed with an industry-leading Total Peace of Mind 6-year warranty that includes five years full replacement plus one year parts.

FILTERED TO THE HIGHEST STANDARDS OF FRESH.

Over a 6-year period, MERV-13 filters will remove two pounds of dust, pollen, mold spores, pet dander, and bacteria from the air in a home.* In comparison, big-box units have MERV-4 or washable filters, which only remove 7 ounces of material from the air over the same period of time.

*Based on regularly changing your air filter: see instructional manual for more information.

PORTABLE

The **Santa Fe Portable Series** offers a wide variety of superior dehumidification options. Designed with basement and crawl space applications in mind, our portable dehumidifiers are professional-grade, high-efficiency and easy to install.

▶ COMPACT70

- **MODEL:** 4044110
- **OPERATING TEMPERATURE:** 49°F - 95°F
- **FILTER:** MERV-13
- **CRAWLSPACE SIZING:** UP TO 1,800 SQ. FT. - 2,600 SQ. FT.

Basements and crawl spaces are ground zero for moisture problems that can lead to mold, pests, structural damage, and poor indoor air quality. **Santa Fe Portable Dehumidifiers** are built to tackle these challenges head-on, delivering powerful protection where it's needed most.

+ High-performance moisture control for basements and crawl spaces.

+ Advanced MERV-13 filtration to reduce allergens, mold spores, and bacteria.

+ Energy-efficient operation.

+ Durable, professional-grade design for long-term reliability.

+ Helps protect the entire home by preventing moisture migration and improving air quality throughout.

The **Ultra Series** offers the ultimate protection. Designed with dedicated ducting for whole home dehumidification and ventilation options.

+ **CONTROL:** ON-BOARD DIGITAL OR LOW-VOLTAGE CONTROLLER

Modern homes are tightly sealed for energy efficiency—but that can trap moisture and indoor pollutants, compromising air quality and comfort. **Santa Fe Whole Home Ventilating Dehumidifiers** solve this by:

+ Controlling humidity throughout the entire home, preventing mold, pests, and structural damage.

+ Filtering and conditioning incoming air with advanced MERV-13 filtration.

+ Slightly pressurizing the home to reduce outdoor pollutants and prevent back-drafting of combustion gases.

+ Improving overall indoor air quality for a healthier, more comfortable living environment.

+ These systems deliver energy-efficient, whole-home moisture control—making every room healthier, safer, and more comfortable.

IN-WALL DEHUMIDIFIER

The **UltraMD33** is the first true in-wall dehumidifier. Featuring a tamper-proof cover, this unit runs independently of the HVAC system and creates a comfortable, healthier living environment for residents. Ideal for apartments, ductless mini-split applications, basements, and other space dehumidification needs. The MD33 can also be installed on a wall with the Surface Mount Kit and partially through a wall with the Bezel Kit.

▶ **ULTRAMD33**

SURFACE MOUNT KIT
PART NUMBER: 4037766

The Ultra Series Surface Mount Kit can be used to permanently install the Ultra Series MD33 In-Wall Dehumidifier to masonry or CMU block when through-the-wall installation is not available.

2X4 WALL MOUNTING BEZEL KIT
PART NUMBER: 4037767

Easily install the Ultra Series MD33 In-Wall Dehumidifier in a 2x4 wall cavity without cutting through both sides of drywall. The powder-coated metal bezel provides a sleek, polished finish that blends into any space.

REAR PANEL KIT
PART NUMBER: 4037768

The Ultra Series Rear Panel Kit conceals the back of the MD33 In-Wall Dehumidifier in 2x4 installations, covering drywall gaps with a durable, powder-coated metal panel for a clean, finished look.

COMMITTED TO YOUR SUCCESS.
